Portfolio

Career Objective

Highly motivated Computer Engineering Student, eager to learn and apply knowledge to real-world challenges and gain knowledge from Industry experts to Increase my Technical prowess. Intend to build a career with an organization, where I can implement my Theoretical Logical, Technical Skills in the practical real life environment with committed and dedicated people.

Education

Viva Institute of Technology

-Bachelor of Engineering, Computer Science Engineering (CGPA- 8.5), E-Cell Vice Chairman

Jan 2021 - Jun 2024

Mumbai

Thakur College of Science and Commerce

-Percentage :- 62%

Jun 2018 - Mar 2020

Mumbai

Shree Vishwakarma High School

-Percentage :- 88%

Apr 2009 - May 2018

Mumbai

Experience

Yalamanchili- Payments and Cards, Navi Mumbai

Jan 2025 - Present

-Software Developer

- Designed and developed secure APIs for financial transactions, enabling efficient processing and seamless banking operations. Built and maintained 90+ fintech APIs for account status, KYC, video KYC, card status checks, balance inquiries, and more, enhancing fintech solutions
- Collaborated with team members using version control systems such as **GitLab** to organize modifications

Rathang Technology

Mar 2023 - Jun 2023

-Web Developer Intern

Remote

- Designed the architecture and completed development using **Javascript, Html, Css** and **Wordpress**
- Collaborated with team members using version control systems such as **Git** to organize modifications and assign tasks.

YBI Foundation

Dec 2022 - Jan 2023

-Data Science Intern

Remote

- Developed various ML projects based on Disease And used **Python, TensorFlow** and many MLand DL algorithms.
- Designed recommendation system for existing system by using **ML Algorithm** and connected with **Flask API**.

VCL Academy

Nov 2022 - Dec 2022

-Blue Team CyberSecurity Intern

Remote

- Completed Blue Team Cyber Security Internship via VCL Academy, gaining experience in defensive security strategies.
- Focused on threat detection, incident response, and network monitoring through video-based learning.

YBI Foundation

Dec 2021 - Jan 2022

-AI & ML Engineer Intern

Remote

- Developed various ML projects based on healthcare and used **Python, TensorFlow** and many MLand DL algorithms.
- Designed recommendation system for existing system by using **ML Algorithm** and connected with **Flask API**.

Technical Projects

Nisarchana | Java, Android, ML, Python, Flask, Firebase, Android Studio, API, Razorpay | [Github](#)

Apr 2024

- This is an **Android** App for infrastructure development projects. It is used to predict the dimension of infrastructure. This allow Customer and Engineer to connect and can take infrastructure projects from customers. It also show **2D** model of project.

Krushivottam - Farm Management & E-Commerce | Java, Android, ML, Python, Flask, Firebase | [Github](#)

Jul 2023

- This is an Advanced Farm Management & E-Commerce platform which provides support to farmers, traders and customers.
- It won funding up to **15 lakh from NETRARIT Foundation (Maharashtra State & Innovation Department)**. It also won **1st prize** in intercollege project competition.

System of Suraksha | Java, Android, XML, Android Studio, Firebase |

Jul 2022

- This is a women safety app which sends text messages with the current location of an emergency situation. This is an Android based mobile application which is developed by using **Java**. This project received **1st prize** in Intercollege project competition.

Apple India Clone | [HTML, CSS](#) | [Github](#)

Jul 2024

- Developed a responsive Apple India website clone using **HTML** and **CSS**, replicating its design and layout to showcase front-end development skills..

Job Tracker | [HTML, CSS](#), [JavaScript](#) | [Github](#)

Sep 2024

- Developed a responsive Job Tracker Web Application using **HTML, CSS** and **JavaScript** enabling users to manage job applications with features such as adding, editing, deleting filtering and searching entries, while ensuring data persistence through local Storage and an intuitive dark mode toggle

Store Management System | [Core Java](#) | [Github](#)

Jul 2024

- Designed and implemented a Store Management System in **Core Java**, supporting a one-to-many relationship between a shop

and multiple products, with features for adding and managing products under a single shop

Banking System | *JDBC, Postgresql* | [Github](#) **Sep 2024**

- Developed a Banking System using **JDBC** and **PostgreSQL**, enabling secure account management, transactions, and customer data handling, with a robust backend database for efficient data retrieval and storage.

Expense Tracker | *Hibernate JPA, Servlet, HTML, CSS, PostgreSQL* | [Github](#) **Jan 2025**

- Developed an Expense Tracker using Servlet, PostgreSQL, and Hibernate JPA, enabling a single user to manage multiple expenses with CRUD functionality. Implemented secure authentication with login, signup, and session management for seamless user experience.

Simulator | *Servlet, JSP, CSS, Java, JSON, XML, SOAP, Rest API* | [Github](#) **Mar 2025**

- Built an API testing tool using Java, Spring Boot, and RestTemplate that forwards POST requests to external REST and SOAP services, returning real-time responses to simulate Postman-like functionality. Enabled efficient backend integration testing without external tools

Skills

- **Core Java, JDBC, Android, SQL, HTML, CSS, JavaScript, Hibernate, Servlet, Spring Core, Spring MVC, Spring Boot, Rest API, Putty, Gitlab, Winscp**

Certificates

- Certified by JSPIDER in JAVA FullStack Developer(2025).
- Certified by Simplilearn in Machine Learning(2024).
- Certified by Programming in JAVA(2022).
- Certified by VCL Academy in Cyber Security(2022).

Achievement

- Published paper on International Journal of Novel Research And Development (2024).
- Third Rank on National Conference Research Paper Publication(2024).
- Participated on Avishkar Competition conducted by Mumbai University (2023)
- Fifth rank in Smart India Hackathon at campus Internal Hackathon (2023)
- First Rank in Imperia (Intercollegiate project competition) (2023)
- Third Rank in Techspark 4.0 (Viva Institute of Technology)(2023)
- First Rank in Imperia (Intercollegiate project competition) (2022)
